## PROFESSIONAL EXPERIENCE

- Jul 2015 - Feb 2016 **The City s.r.l.s.** - Via In Arcione 98, 00187, Rome, Italy  
As part-time job I worked for a real estate agency where I developed its website [www.thecity.im] using Html5, SCSS, Javascript, JQuery, Bootstrap for front-end. The back-end has been developed with Ruby on Rails.
- Feb 2015 - May 2015 **InnovAction Lab** - Università Roma Tre  
InnovAction Lab is a training course that gives you the ability to turn your innovative idea into a startup. At the end of the course I was able, with my team, to found our startup: Fashape. Fashape is the startup that help people to find the best men's fashion products through a daily wish list of most voted objects from social networks. The entire development of the site was carried out by me with Meteor javascript framework and Microsoft Azure cloud resources.
- Sep 2013 - Sep 2014 **H.S.C. s.r.l.** - Via Elio Lampridio Cerva 103, 00143, Rome, Italy  
For over a year I have collaborated for developing an enterprise software, using Delphi programming language and PL/SQL for database queries.
- Apr 2013 - Jul 2013 **I.S.T.C. - C.N.R.** - Via S. Martino della Battaglia 44, 00185, Rome, Italy  
For my internship I developed a desktop application to a robotic platform with the aim of analyzing the person's posture and balance through three simple exercises engines. The application was developed in C# and working closely with the Kinect sensor for tracking posture.
